

A'ISYAH KAMILAH MD HASSAN

Aspiring Data Analyst

[Marang, Terengganu] • [019-9591676] • [mdhassankamilah@gmail.com]

www.linkedin.com/in/aisyahkamilahmdhassan

Final-year Mathematical Modelling and Analytics student seeking a **16-week Data Analyst Internship** (**September 2026 - January 2027)**. Proficient in MATLAB, Python, R, SQL, Excel, and Power BI, with hands-on experience in data analysis, statistical modelling, machine learning, and optimization. Passionate about transforming data into actionable business insights while contributing to real-world projects.

EDUCATION

BSc. (Hons.) Mathematical Modelling and Analytics October 2023 – Expected February 2027

Universiti Teknologi MARA (UiTM), Cawangan Terengganu, Kampus Kuala Terengganu *CGPA: 3.50*

- Relevant coursework: Numerical Methods and Analysis, Business Data Analytics, Programming for Data Science, Database Design and Development, Intelligent Decision-Making Support Systems, Statistical Modelling, Linear Algebra, Differential Equations.

Foundation in Engineering August 2022 – June 2023

Universiti Teknologi MARA (UiTM), Kampus Dengkil *CGPA: 3.33*

- Relevant coursework: Engineering Mathematics (calculus, numerical methods, differential equations), Engineering Computing/Programming (C++), Physics, Chemistry.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, R, Java, C++, PHP, HTML, C.
- **Analytics & Machine Learning:** Data Cleaning, Data Validation, Statistical Analysis, Classification, Clustering, Regression Analysis, Predictive Modelling, Feature Selection, Performance Benchmarking
- **Software & Tools:** Power BI, Microsoft Excel, IBM SPSS Statistics, WEKA, Microsoft Access, SigmaPlot, Maple, MATLAB, QM for Windows.
- **Languages:** Malay (Native), English (Proficient), Arabic (Basic).

ACADEMIC PROJECTS

Three-Term Conjugate Gradient Optimization in IMRT — Final Year Project MATLAB

- Developed a MATLAB-based optimization model to improve radiotherapy treatment planning using the CORT prostate dataset.
- Evaluated four optimization algorithms using benchmark datasets to identify the most computationally efficient approach based on iteration count and CPU time.

Dynamic Pricing Model — Malaysia Industrial Mathematical Modelling Challenge 2026 Team Project

- Developed a mathematical model to optimize agricultural machinery rental pricing, enabling more efficient and data-driven pricing decisions.

RR Café Ordering System Database SQL, Microsoft Access

- Designed and normalized a relational database to 3NF, improving data organization and supporting efficient SQL query execution.

Classification & Clustering of Survey Data WEKA

- Built an end-to-end data mining pipeline on a 7,000-record survey dataset: cleaning, missing-value imputation, outlier detection (IQR), normalization, discretization, and InfoGain feature selection.
- Trained and compared three classifiers (J48, Random Forest, Naive Bayes) using cross-validation and percentage-split evaluation, and applied K-means clustering, reporting accuracy, MAE, and confusion matrices.

CERTIFICATIONS

Power BI Data Visualization Workshop (Microsoft Power BI) January 2026

- Completed a Power BI Data Visualization workshop, gaining hands-on experience in developing interactive dashboards and reports using Microsoft Power BI.

WORK EXPERIENCE

Part-Time Mathematics Tutor (SPM Level) Weekends, 2025 – Present

- Teach SPM-level additional mathematics to students, breaking down problems into clear steps and adapting explanations to each student's pace — building strong skills in communicating technical concepts to non-experts.

Service Crew, F&B May – August 2022

- Worked consecutive day and evening shifts across two restaurants while studying full-time, demonstrating reliability, time management, and composure in fast-paced service.

LEADERSHIP & ACTIVITIES

President, Arabic Club, UiTM October 2024 – December 2025

- Led a student organization of **150+ members** and supervised a **16-member executive committee**, successfully organizing **eight academic, cultural, and community outreach programmes**.
- Coordinated programme planning, sponsorship acquisition, budgeting support, stakeholder communication, and task delegation while collaborating with schools, lecturers, and external organizations.
- Strengthened teamwork and programme execution through effective leadership, resulting in successful events with positive participant and stakeholder feedback.

Program Director – Program Kecemerlangan: *Bangkit Dengan Kepimpinan, Berdiri Dengan Keyakinan*

- Directed a **14-member organizing committee** in delivering a leadership and motivation programme for **60+ secondary school students**.
- Managed programme planning, school liaison, task allocation, and contingency planning to ensure smooth execution despite operational challenges.
- Received recognition from the programme advisor as **one of the best organizing teams** for delivering a well-coordinated and impactful programme.

Head of the Protocol Bureau – Minggu Destini Siswa (MDS) 2025/2026

- Coordinated protocol and programme flow for a week-long orientation involving **350+ new students** alongside an **11-member organizing committee**.
- Resolved real-time operational issues, including schedule delays, VIP arrivals, and technical disruptions, by implementing contingency plans to ensure seamless programme delivery.

KOR SUKSIS (Police Volunteer Reserve Student Corps), UiTM Cawangan Terengganu

- Served in the Kerohanian (Spiritual) Bureau and completed professional courses in police field training (PGA), ethics and integrity, self-defence, and first aid and rescue.
- Regularly selected as master of ceremonies (emcee) for official SUKSIS programmes and ceremonies.

SELECTED ACHIEVEMENTS

- Participant of Malaysia Industrial Mathematical Modelling Challenge (MIMMC) 2026
- Silver Medal, PIITRAM 2023 Innovation Competition (PASOO)
- Presenter, PRIDE Innovation Showcase (TREMONO)
- Malaysia Techlympics Facilitator (East Zone)
